2006 PNC³ TALLY OF BALLOTS

The following report covers the recent election of the Plate Number Coil Collectors Club. The officers will begin their terms Sept. 1, 2006 and serve through Aug. 31, 2008.

Total Ballots Cast: 201

President — Ron Maifeld	201
Vice-President — Thomas McFarland	164
Eric Russow	35
Secretary — Daniel Farrar	196
Treasurer — Harvey Wales	193
At Large — Gary Davis	99
Andrew Jakes	172
Edward Wigger	115

Please note: Several ballots omitted votes for one or more candidates and one ballot marked both candidates for vice-president. Only this office was not counted.

Respectfully submitted,

The Ballot Committee

Robert Hubsmith, Rob Loeffler, Robert Moskowitz

Auction lots due by Aug. 19

Auctioneer Joe Sedivy has called for lots for the October auction of the Plate Number Coil Collectors Club.

Joe needs to have all of the lots in his possession by Aug. 19. This will allow time to set up the auction and supply the list for the October issue of *Coil Line*. Do not wait until the last minute to mail the lots to Joe.

Regional meeting Oct. 14 at SESCOAL

A regional meeting of the Plate Number Coil Collectors Club has been called for Saturday, Oct. 14 at SESCOAL.

The show is held at the Radisson Hotel at the Los Angeles International Airport Friday through Sunday, Oct. 13-15.

The meeting is scheduled from noon to 2 p.m. The meeting location will be available at the show.

Jack Wasserman is in charge.

Message from the President:

STAMPSHOW in Chicago: PNC³ annual meeting site

The American Philatelic Society's (APS) annual convention, STAMPSHOW, will be held August 24 through August 27, in Hall G (2nd floor) of the Donald E. Stephens Convention Center, 5555 N. River Rd, Rosemont IL. This convention center is very close to the Chicago O'Hare Airport. Show hours are 10 a.m. until 6 p.m. on Thursday, Friday and Saturday. Sunday hours are 10 a.m. until 4 p.m.. Admission is free, but you must register and receive a badge to be admitted. You may register in advance at the APS website, www.stamps.org, and have your badge waiting for you or register when you arrive at STAMPSHOW.

PNC³ members will be operating our society booth all four days of the convention (Thursday through Sunday). If you can help staff our booth for any of those days, please e-mail me at president@pnc3.org with days you will be attending the show. Our booth always acts as a welcome gathering place for PNC³ members and much information is exchanged. At our booth, you may pick up dealer price lists gathered for Washington 2006. We will also have on display the power point presentation put together by the Washington 2006 committee with its many interesting images of plate number coils.

On Saturday morning the PNC³ Board will meet from 9-12 a.m. Interested PNC³ members are free to attend this meeting. Our annual PNC³ membership meeting will be from 2-4 p.m. that afternoon. Many of the newly elected PNC³ officers will be in attendance at the annual meeting and will be introduced there. Check the show program for the exact rooms where these meetings will be held or stop by the PNC³ booth for the information.

On Thursday and Sunday, I will be giving a seminar on PNC³ collecting. This one-hour presentation is designed for those who want to know more about PNC collecting. Most in attendance are not PNC³ members, but all are welcome.

(Continued on page 90)

Stampshow

(Continued from 89)

PNC³ has asked APS for a frame to re-display the one frame exhibit that the Washington 2006 Committee put together for that show.

I will be at the show all four days. Please stop by our booth and say hello.

— Frank Covey

Three Egret Coil Plate Numbers Prove Elusive - The Real Story

By Doug Iams

In the July 3, 2006 *Linn's Stamp News* there was an article about these stamps that only told part of the story and contained several errors.

Three of the plate number combinations used to print the Sc. 3829 37c Egret coil have proven very hard to find. Those plate numbers are V2121, V3211 and V3221. For a number of months after the V3212 was first reported, it was also on that list, but eventually significant quantities surfaced.

According to data obtained by Richard Nazar through the Freedom of Information Act, the cylinder activity data from Avery Denison indicates the V3211 was printed on 6/16/04, but it was not first reported until 2/28/2005 by Chris Landa.

Neither the V2121 or the V3221 were listed in the cylinder activity data reports (which are neither 100% accurate nor 100% complete), so we don't know when they were printed, but the V3221 was first reported on 4/19/2005 by Vic Collinino, and the V2121 was first reported on 7/19/2005 by Bob Murrin.

Of those three, only the V3221 has been found in mint condition. The other two are only known in used condition.

The Linn's article claimed that 36 rolls of 100 of the V3221 "were found by a collector who subsequently sold them to a dealer." While the 36 rolls part is accurate, the "found by a collector" part is a false story that was circulated on the internet by dealer/writer Steve Esrati who very quickly retracted it and replaced it with the true story that dealer Mike Lipson found the rolls.

In fact, Mike found the rolls in two different finds two months apart in Virginia in 2005. In the first find, all the rolls had the VP die cut, but the second find included three PV rolls. He was led to the general locations of the finds by postmarks on used copies. Many of the Post Offices that he checked did not have the V3221 and even when he did find the V3221, other rolls in the same PO were one of the common numbers, V3222.

The only other mint find of the V3221 involved only a partial roll and was rescued from the home of a non-collecting relative by a collector (who wishes to remain anonymous) in January 2006. The roll, a VP roll, was purchased by the collector's relative in southern Virginia on around September 2005. The cover in the Linn's article was from the same area and timeframe. Since the

plate number interval on these coils is every 11 stamps, not every 10 stamps as stated in the Linn's article, there are less than a total of 350 mint V3221 plate strips.

Despite my request at the end of my Used 37c Egret Survey article in the June 2006 *Coil Line* to "Please don't add up the numbers and say there are only x known copies of Vxxxx as I do have a few additional reports of these numbers..", Linn's did exactly that for the V3221, adding in 2 more copies they were aware of to "bring to five the known 37c Snowy Egret coil stamps bearing this tough-to-find plate number".

Besides the fact that Linn's left off the word used, more than five are known used. There are far more than just the 5 people who were in my survey out there who search mixtures and covers.

I didn't report the other copies I was aware of then (which has increased since then) because the other data I had was either out of date or incomplete and I only wanted to present up-to-date information that included a full survey of all the numbers (but not all searchers) rather than a report of someone having a copy of a particular number out of context of the other numbers. The point of the survey was to allow the reader to see the relative scarcity of the various numbers (so many copies of a number out of roughly 7,500 copies of the 3,829) and suddenly Linn's turned it into so many known of a number. They are very scarce, but don't delude yourself into thinking the ones in the June survey are the only ones known.

Letter

More data on coil separator cuts

To the Editor:

To go along with the report of Gerald Blankenship in the July *Coil Line*, here is an accounting of my finds so far:

3617 V11 2 Lefts and 1 Right

3617 V24 1 Right

3617 V46 2 Rights

3829 V1111 2 Lefts

3829 V2111 10 Lefts and 4 Rights

3829 V3212 2 Rights

3829 V3222 2 Lefts and 1 Right

3829A P44444 1 Right

3968 V1111 1 Right

The problem is that you also find straight edged stamps that come from separator cuts on many PNC's. Since they are less clear as to origin, I just discard them.

I hope this expands your info base.

Chris Landa

APS #54463 Since 1968

(Another letter on page 98)

This and That by Doug Iams

Sennett Weak Tagging

The weak tagging that has been found on some of the Sennett self-adhesive 5c Seacoasts, 10c Lions, and 25c Eagles is not the result of the use of the wrong paper. Rather it is a result of their paper manufacturer not completely cleaning out the taggant from the production equipment when switching from a tagged paper run to an untagged paper run. Neither USPS nor Sennett consider these to be error stamps since the tagging brightness falls well below the brightness spec for tagged paper. As such, we can probably expect to see more of these in the future. The Scott catalog has chosen not to list them and I am underwhelmed, but you can make your own choice.

10c Clock

On August 4th, the 10c American Clock design will be issued in a WAG coil of 10K. One of the biggest users will likely be the DAV. The plate number interval will be 14 stamps while the back number interval will be 10 stamps, which means the back number on plate number interval will be 70 stamps on those rolls that have a # on # (so called even rolls).

Atlas Back Number Freak

Strips of the Atlas V33333 with an unusual series of ghost back numbers were found in a dealer's stock at Washington 2006. In the example pictured below from Frank Covey's collection, a normal 04780 back number is located behind the first stamp of the strip, but then a partial 047700 ghost appears behind the second stamp (first and second counting when viewing from the stamp side). There are also traces of numbers behind the other three stamps not pictured. The explanation from Avery is that the back number ink did not dry as fast as normal and was picked up by a roller which then printed it back onto the liner. The roller was evidently 9 stamps around and thus the ghosts were displaced by one stamp each. The numbers are also located a bit lower than their normal middle location for this issue.

Die Cut Misalignment

On page 2 of the July 17 Linn's, a used non-denominated 39c Flag was pictured with a large misalignment of the die cuts. Linn's speculated that this was caused by a poorly machined die cut mat. For the benefit of our members who have joined since May 2004, the actual cause is as follows: Sennett (or more specifically Unique Binders) does not die cut the entire height of the web all at once. Instead part of the height is die cut at one station and then the remaining part is done at another station. There is a small overlap and if the second die cut operation is not perfectly aligned with the first then a die cut misalignment results. Mint examples of this misalignment are known on the non-denominated 39c Flag S1111 and to a lesser degree on the 37c Flag S2222.

CURRENT ISSUE NUMBERS & ROLL SIZES

07/10/06 AHT

KEY: A-100, B-500, C-3000, D-10000

EP - EMBEDDED PHOS UT - UNTAGGED

Sennett's SA Lion S55555 was printed with a different size cylinder than previous plate numbers. Consequently the plate number interval changed from 21 to 20. S55555 & higher have the 20 interval.

Ashton Potter's SA Seacoast P2222 was die cut with two different mats. One is serpentine cut on all four sides while the other has serpentine cuts on the sides and straight cuts on top and bottom.

● In printing the SA Seacoast with cylinders P2222 through P7777 AP changed the cylinder size from that used to print P1111. Thus the plate number intervals changed from 22 to 27. P3333 through P7777 have a small date and color order of BCMY.

■ The Kestrels differ in the order of color laydown. Colors are black, yellow, cyan and magenta. Type I sequence is BYCM. Type II is BCYM. Type III is YMCB. The color order shows in the plate number.

Peak/Valley American Crops

By Frank Covey

In a May 2006 Coil Line article, I discussed how it was sometimes difficult to identify what kind of die cut was present by looking at an individual American Crops coil. The difficulty arose because the separating cut that divides one coil from another was often not where it should be making it a challenge to tell whether you were looking at a poorly centered Valley/Peak (VP) die cut or a Peak/Valley (PV) die cut. All of the Crops coils illustrated in the May article were the VP die cuts.

Shown below is the newly found PV version of the American Crops coil. It is identified by looking at the first feature on the top left hand corner of the stamp and the last feature on the top right hand corner of the stamp. The stamp image must be upright.

In the illustrations shown on this page, I have shown two stamps side by side. Note that on the PV version shown above, the long (transition) cut between stamps goes up when viewed from left to right while on the VP version shown below, the transition cut between stamps goes down.

Catalog Corner

39c Lady Liberty &
U. S. Flag (SSP) (SA)
Plate S1111
PNC ID 2006-7

The Sennett Security Products (SSP) self-adhesive denominated Lady Liberty and U. S. Flag is the second of three expected denominated Lady Liberty and Flag self-adhesive rolls of 100. It pays the 39 cent first class rate that went into effect January 8, 2006.

The S1111 plate number appears every 14 stamps along the roll. There is a black 2006 date in the lower left corner of every stamp.

SSP also has a gummed perforated version of this stamp with plate S1111 (PNC ID 2006-3).

The self-adhesive coils are packaged in a stick format with one coil stacked on another, 10 coils high. Tiny pieces of uncut paper known as bridges hold the stack together until it is separated. A leader strip, the height of the coil with adhesive on the ends, wraps the coil into a neat package.

Some PNC collectors save these coils stacked two or three high so they can illustrate the bridges that connect one coil to another.

To save the leader strip with stamps attached as shown below, one must deaden the adhesive on the back of the leader strip and the adhesive residue left on the front just before the first stamp. A light sprinkling of cornstarch rubbed into the adhesive will kill the stickiness of the adhesive making the leader strip a collectible item.

COVER OF THE MONTH

The above DAV self-addressed, stamped envelope features an imperforate strip of 5 of the 5¢ Toleware #S1111111. (Cover courtesy of Dan Farrar.) (If you have an interesting, out of the ordinary, unusual, or scarce PNC cover for *Cover of the Month*, please send a photocopy of your cover against a black background to Rob Washburn, P.O. Box 840, Skowhegan, Maine 04976.)

Changes planned to PNC guide published by Philatelic Arts

Philatelic Arts would like to announce that the new edition of the *Guide to Collecting Plate Number Coil Stamps* is in the final stages of editing and revisions. The publication date this year is Sept. 1, 2006.

The guide will have a new look and a new shorter name. The name is being shortened to *Philatelic Arts 2007 PNC Guide*. Table formats have been altered to include only Used Singles, Mint Strips of 3 and 5 and Covers. There still are columns for checking off holdings. The spacing is larger and easier to read with shaded alternating rows.

Many new color scans that include older issues as well as the new ones will make for easy identification of PNC variations. The 2007 guide has also been reorganized by denomination and has expanded from 230 to 270 pages including values in the categories mentioned earlier.

The overall size is the same and the book is spiral bound with clear protective plastic covers. Free with orders for the guide will be a set of 14 album pages for Used Singles and Mint strips of 5 for the new issues of late 2005 and early 2006.

Customers on the mailing list will receive a packet in the mail shortly. Others who are interested can visit my web site at

www.philatelicarts-pnc.com or
<mailto:jwjakubson@philatelicarts-pnc.com>

The guide is being offered at a special prepublication price of \$58.50 + \$4 S&H until 8/31/06. This is a 10% savings over the retail price of \$64.95 + S&H.

PNC³ meetings and slide shows

A listing of scheduled Regional and Annual Meetings will be published in *Coil Line*.

Until a new Regional Meeting coordinator is appointed, please send notices of meetings directly to the *Coil Line* Editor.

August 24-27 2006 — PNC3 Annual Meeting — Stampshow will be held at the Donald E. Stephens Convention Center in Rosemont, IL., a western suburb of Chicago near O'Hare International Airport.

The board meeting will be held Aug. 26 and the annual meeting will be from 2 to 4 p.m. Both meetings are open to everyone. The location of both meetings will be available at the show.

Registration is free and can be done in advance at the APS Web site.

SESCAL, Saturday, Oct. 14. The meeting will be from noon to 2 p.m. Show is at Radisson Hotel at Los Angeles International Airport. Announcements will be sent to all California members but anyone may attend. Jack Wasserman will be in charge, with assistance from other members.

COIL LINE

Published monthly as the journal of the Plate Number Coil Collectors Club, also known as PNC³. Copy must be in the hands of the editor no later than the 15th of the month. The July issue was mailed June 23.

President: Frank Covey, 16 Grandview Dr., Macomb, IL 61455
president@pnc3.org

Distribution: Alan Thomson, P.O. Box 91, Northwood, NH 03261 or mr.snips@verizon.net Mailed under Bulk Rate permit No. 1, Northwood, NH 03261. Contact Alan first about which back issues he has in stock.

He may refer you to Charles Still at 23913 Benton Road, Kirksville, MO MO 63501 for older issues. Please include an SASE. There is a modest charge to cover expenses.

Changes of address: Should be sent to and membership applications are available from Tom McFarland, Secretary, P.O. Box 756, Princeton Jct., NJ 08550 secretary@pnc3.org

Report on rate change issues from off-paper mixes

To the Editor:

I receive used PNCs off paper regularly from four suppliers in New York, Missouri, Wisconsin, and Montana. As of the batch I just finished going through here are my findings on the new rate change issues. You might want this information for *Coil Line*. As you can see, this represents findings from the East Coast, Upper Midwest, Mid to Lower Midwest, and the West Coast.

There were a few more, but I didn't count damaged in these totals.

4002	24c	Common Buckeye # V 1111	PVVP	0
			VP/PV	2
3967	(39c)	Lady Liberty # S 1111		22
3968	(39c)	Lady Liberty#V1111	PV/VP	30
			VP/PV	91
3969	(39c)	Lady Liberty # S1111	PV/VP	186
			VP/PV	33
3970	(39c)	Lady Liberty # P 1111		24
		# P 2222		68
3979	39c	Lady Liberty # S 1111		0
3980	39c	Lady Liberty # V 1111	w/gap	1
3981	39c	Lady Liberty # P 1111		5
3982	39c	Lady Liberty #S1111	PV/VP	0
			VPVP	0
4005	39c	Crops # S 1111		20

To date, I have not heard of any findings of the denominated Avery 39c Lady Liberty # V 1111 in mint condition, let alone used.

END OF SALE

Raphael Peretz, 147-19 20th Road, Whitestone, NY 11357 PNC# 316

Attach lot here

Plate Number Coil Collectors Club Consignment Sheet
Photocopy this page. A separate sheet is required for each lot.

Check with PNC3auctions@aol.com for submission deadline

Please Note: There is a 50-cent charge per lot.

- 1) Use a separate consignment sheet for each lot.
- 2) Keep this entire page intact and attach lots in a glassine with tape to the top half (do not use staples). I understand that this may not be possible for longer strips.
- 3) **LIMIT YOUR CONSIGNMENTS TO 25 LOTS.**
- 4) As I still find that there is no totally acceptable definition of a commercial cover, all covers will be listed as First Day Covers or Other Covers. There will be no exceptions.
- 5) If you do not state a minimum bid, your lot(s) will go to the highest bidder regardless of the price(s) realized.
- 6) Do not enter anything under Lot # on the consignment sheets.
- 7) Bidding increments are: \$0.00 to \$4.75/25c \$5.00 to \$9.50/ 50c \$10 to \$49.75/\$1 \$50 to \$97.50/\$2.50
\$100 to \$495/\$5 \$500+/\$10
